St. Louis, 10—Captain James B. Fads, accompanied by his wife and daughter, and others, left to-night for Merico. His mission to Merico is to make a survey of the lathnus of Tehnon-topec to determine its adaptability for an inter-occanic ship railroad.

Gospel Truth.

New York, 11.—The Charleston News and Courier, democratic, says of the election results! Since the coefe terate war ended the national democratic party has been fighting against the ingic of events. It has been a party of obstruction and negation. A political party which cares for nothing but success is on the broad road to ruin.

Almost a Christian.

Chicago, 11.—Yee Men, the Chinaman murdered by unknown robbars, was buried to-day after Christian forms, he being a member of the Mission School and having outgrown many superstitions of his race, although not a convert. Many Sunday school children, as wall as Chinese residents attended the funeral. Rev. E. B. Buribut, of the Fourth Presbyterian Church, officiated.

The Morey Perjarers.

New York 11.—After the prisoners Movey and O'Brico had signed their case, Justice Morgan committed them, in default of \$5,000 bail cach, to await the action of the grand jury. O'Brien was taken back to the Tombs, and Morey's friends started out to look for bail. The papers were at once laid before the grand jury. The confession is held back, it is said, because it implicated persons not yet arrested.

Solomon Sullivan Morey, F. E. Morey and John W. Morey were conducted to the grand jury room. Solomon was bowed by physical infimities and was weak, wore and haggard. He was before the grand jury come time. After the examination, while conversing with his son, he felt on the floor in an epilaptic fit, and when recovered lay on a bench at full length. Several Cumberland gentlemen testified regarding James O'Brien, but would not state what their testimony was.

Foreign Finances.

Foreign Finances.

New York, 11.—Europasa exchanges show much uneasiness in Germany and France on the currency question. It is stated by those likes by to be best informed that the Imperial Back of Germany is able to restin a proportion of only about ore-third of the reserves, in gold, while the Bank of France contiones losing gold rapidly, and the proportion of gold to the entire cash receive is only 46 per cent.

Foreign advices represent that there are more complaints made about the Chinese methods of transacting business than at any previous time. The Shanghal Chamber of commerce has taken up the endigels on Blaine, and assert that the firm had a dispute respecting the weight of some tea which was purchased from the activative and assert that the firm had a dispute respecting the weight of some tea which was purchased from mitted to arbitration and assert that the firm had a dispute respecting the weight of some tea which was purchased from the customers. New York, 10.—The executive committee of Irving Hall met to-night. The report of the sub-committee, to which was referred the master of comparing census returns with the voice police, with the view to ascertain the fraudulent vote cast, was presented. It sais forth that prominent among the causes which healt do not not be democratic defeat in the last election must be reckened the sees alon from the democratic defeat in the last election and bribery a large portion of the single of the solid of the theory was used to divert vetes to Gardied. The report charges that to colonization, intimidation and bribery a large portion of the increased republican vote was due. It suggests that a congression investigation be had as an analysis of the presidential election, and must be chacked. The report was adopted, but a resolution to petition declaring the democratic defeat was due to incompelent leaders, both of Irving and Tammany Hall, was lost. The subcommittee was continued and the meeting adjourned.

The same paper: The case of Terry dense ratic elector in California, who whether elected or not, certainly run behind his ticket in a very class state emphasizes the folly of meminating any, body as an elector who has anything in his record that men of his own party car reasonably object to. In Terry's case it is seen that there may be objections to individual electors in subtance as well as form, and the lesson should not be lost.

Richmond, Va., II.—The Evening State says the northero press is doing it best to get up a silly and wicked arctisment over the election to graiffy a fascis and perhaps unsettle business during the interregnum that is between now and the decisration of the electoral voting the interregnum that is between tow and the decisration of the electoral voting February by Congress, but the wree and most outrageous part of this miserable business is the attempt to saddle the south with the responsibility for it by representing the proposition to throw out the vote of New York and decisre Hancock elected in Congress, or to elect him by the vote of that body as coming from R chmond. No same man here has ever thought scriously of even contesting Garfield's elections and the same we think may be said of the whole south.
